

How The Daily News Fish Came To Be... (for the fans)

by Ryan B.

It was a normal day, but I was bored so I started writing and decided to make a funny newspaper. At first it was The Daily News Flash, but when I showed it to my friend, (Co-creator of the D.N.F.) Kieran, he said it would be funnier if I called it The Daily News Fish. I loved the cartoony, yet flat out fun, character we all know and love, Domo! Slender Man is one of the most horrifying character ever, originally from the game Slender, but I gave him a good approach as a friendly news reporter. Derp... ok, I just remembered that the D.N.F. doesn't have a long history, so yeah... Please tell me if you liked this special edition Daily News Fish.
